Internationally renowned comedian Jason Byrne is on a tour of India and his pit stop will be Bangalore. So the Lulu folks are already excited to see this really funny guy go back to the roots of his comedian days. Guess what he finds there - Ducks, False Chins, Portable Igloos, Bewildered Owls, Dolphins and plenty more of such strange aberrations. The best part of watching this standup comic perform is his effortless interaction with the audience that sometimes gives you a feeling that he has abandoned the script.
